PROFILE

AI & Data Science student, focused on workflow automation and intelligent agent development. Outside of my coursework, I design and build functional MVPs, exploring how AI can solve complex problems ranging from document management to multi-agent systems. I develop solutions using both custom code and low-code tools, independently testing everything I create.

PROJECTS

- **MVPs for professional practices:** end-to-end design and development, independently — labour consulting, legal services and proptech, healthcare. Dates, deadlines, calculations and statutory requirements handled with deterministic code; generative AI limited to drafting text, always subject to human review. Names, architecture and demos on request.
- **Ætherform · ÆON** (aetherform.org): independent audio-software project; ÆON, the first plugin, is in pre-release with its site and in-browser demo live. Co-founder (two-person project): concept input, web development, positioning and launch.
- **TravelSwipe:** travel discovery app with Alidays and OttoZeroUno (Lumina programme, H-Farm). Co-founder & CTO, team of 4.

TECHNICAL SKILLS & CERTIFICATIONS

- **Artificial Intelligence:** Anthropic — 10 certified courses (Claude 101, Code 101, Platform 101, Code in Action, Cowork, MCP, AI Fluency ×4); Hugging Face — Agents Course (Certificate of Excellence); Cisco Introduction to Modern AI.
- **Automation & Data:** n8n (Level 1 & 2), KNIME Analytics Platform (Basic Proficiency), Microsoft Power BI (H-Farm College).
- **Programming & IT:** Cisco Networking Academy — Python Essentials 1, Introduction to Cybersecurity, Learn-A-Thon 2026.

EXPERIENCE

- | | |
|---|----------------------------|
| Outlier
Freelance contributor — Generative model evaluation
Comparative evaluation of LLM outputs on web-development tasks: prompt adherence, correctness of generated code, rendering and logic errors. | <i>Aug 2026 – Present</i> |
| Lumina Consulting Agency
Consultant — AI & Digital Technologies — Team AI & Research
Strategic consulting on AI and on helping companies leverage generational diversity. | <i>Oct 2025 – Present</i> |
| In Vino Solidaritas
Co-founder & co-developer — 1st place nationally
Circular-economy startup for soil regeneration. National COde&FraME challenge (Fondazione Mondo Digitale & Eni). | <i>Sep 2022 – Dec 2022</i> |

EDUCATION

- | | |
|---|-----------------------------|
| H-Farm College / University of Chichester
Bachelor of Science (BSc) in AI & Data Science, in partnership with the University of Chichester and Microsoft. | <i>2025 – 2028</i> |
| Manchester Jr-Sr High School, North Manchester (Indiana, USA)
Semester abroad in the United States as an exchange student. | <i>July 2023 – Jan 2024</i> |
| Liceo Scientifico Duca degli Abruzzi, Gorizia
Scientific High School Diploma (IT focus). | <i>2020 – 2025</i> |
